

## The 2021 Hyundai Kona

The 2021 Hyundai Kona is the perfect small car for your big adventure. It is a compact SUV with smart safety features, a versatile design, great technology, and up to 33 miles per gallon. These features build a car that is made for spontaneous adventure trips.

The smart safety features include [Driver Attention Warning](#), [Forward Collision-Avoidance](#), [Lane Keeping Assist](#), [Rear Cross-Traffic Collision Warning](#), [Blind-Spot Collision Warning](#), [High Beam Assist](#), and [Smart Cruise Control](#) to keep you as safe as possible on long journeys. The Driver Attention Warning feature detects inattentive driving and alerts you with a sound and warning message. The Forward Collision-Avoidance Assist alerts you if you are getting too close to a car in front of you, and the Lane Keeping Assist alerts you if you are drifting out of your lane. My personal favorite is the Blind-Spot Collision warning, which alerts me to objects I cannot see. Of course, the SUV also has an All Wheel Drive. The AWD helps the KONA grip the roads regardless of the weather conditions. These features help you get more out of your trips by making you feel more secure and confident in your SUV.

The versatile design introduces a new [Night edition](#), with 18-inch black alloy wheels, a variety of exterior color options, and gloss black accents to make the sleekest car you'll ever take on an adventure. The design also features a compact trunk, standard 60/40 split fold-down rear seats to create more storage, and an 8-way power driver seat with power lumbar support to easily control your comfort. This design does a fantastic job maximizing your storage without making you feel cramped on your trips.

The technology in this vehicle is also superb. The Heads-Up Display (HUD), Wireless Device Charging, and Apple CarPlay or Android Auto allow you to stay seamlessly connected to your world while venturing out in nature. The HUD shows speed, navigation, Smart Cruise Control and safety info on a transparent panel in your line of sight. The 2021 Hyundai Kona also features a great 33 miles per gallon so you get the most fuel out of your trips. Every new 2021 Hyundai also gets Hyundai Complimentary Maintenance for 3 years or 36,000 miles. The 2021 Kona offers up to \$3,000 total savings or 0% APR finance up to 60 months or \$189 per month to cover all of your cost needs.

Without question, the 2021 Hyundai Kona is the best SUV for your big adventures. It offers a compact design for all the storage and safety you will need, while also keeping you comfortable and showcasing a cool design. It gives you a nature experience like no other while also giving you access to the technology you'll need to stay connected to your world. This SUV truly has it all for your adventure needs and stays simple despite its complex features. So be spontaneous and keep exploring this wonderful world. KONA is ready to go.
